AQA Selective Income, a Sub-Fund of AQA UCITS Funds SICAV p.l.c.

This Sub-Fund is managed by AQA Capital Ltd, part of the AQA Group of Companies

Objectives and Investment Policy

Investment Objective: The investment objective of the Sub-Fund is to maximize capital growth and generate an attractive total return consisting of current income and capital appreciation, with a lower risk/reward profile associated with investing in credit markets.

Investment Policy: To capitalise on attractive opportunities, while minimising risk, the Investment Manager shall primarily allocate investments across a universe of fixed and/or floating listed corporate and/or sovereign bonds (whether listed or unlisted). The Sub-Fund may invest in money market instruments and perpetual bonds. Exposure to these assets may be achieved either directly or indirectly using UCITS eligible Collective Investment Schemes including ETFs. The Sub-Fund may invest in other collective investment schemes which are also managed by the Investment Manager. The Sub-Fund will not be biased towards any particular duration.

The Investment Manager (“We”) will seek to maintain an average credit quality of Ba by Moody’s or BB by S&P or a Bloomberg composite of BB, although the portfolio may contain securities rated lower or higher. We will invest in a diversified portfolio of investments over a broad base of issuers and industries. We are not restricted to any particular duration, market sector or industry. However, the Sub-Fund is expected to be biased towards the US. The Investment Manager shall aim to manage credit risk and interest rate risk through credit analysis and credit diversity.

The Sub-Fund may invest up to 20% of its NAV in SPACs and/or listed equities.

For temporary or defensive purposes, we may hold short-term fixed income instruments, money market funds, cash and cash equivalents. The Sub-Fund may also hold such securities for cash management purposes.

The Sub-Fund may also invest in exchange traded and over the counter derivatives including but not limited to currency forwards and Credit Default Swaps (CDS) for hedging and reduction of risk. OTC derivatives will be entered into with Approved Counterparties. The Sub-Fund is being actively managed.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Investment Objective and Investment Policy.

Income: This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares.

Buying and Selling Shares: You may buy and sell Class C USD Institutional Accumulator (this “Class”) on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency: The Class in the Sub-Fund is denominated in USD.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw money within 2 years
