What is this Product ?

Product Type:

Undertaking for Collective Investment in Transferable Securities (UCITS) Fund.

Investment Objective :

The investment objective of the Sub-Fund is to achieve medium to long-term capital growth. There is no guarantee that the investment objective of the Sub-Fund will be achieved, and investment results may vary substantially over time.

Maturity:

The Duration of the Sub-Fund is indefinite.

Income:

This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares. The Directors reserve the right to pay Dividends at any time if they consider that a payment of a Dividend is appropriate.

Buying and Selling of Shares:

You may buy and sell Class EUR A Retail Shares (this "Class") on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency:

The Class in the Sub-Fund is denominated in EUR.

Target Investors:

The Sub-Fund is generally suitable for investors willing to hold their investment for a minimum period of five years.

Investment Policy:

The Sub-Fund may invest in a range of securities (whether listed or unlisted) including corporate and/or government bonds and/ or equities and/ or units of other eligible UCITS and/or other non UCITS collective investment schemes (including ETFs). The Sub-Fund is not expected to have any bias towards any specific industrial, rating, market capitalisation, geographic or other market sector. At any point in time the Sub-Fund may be 100% exposed to equities or bonds.

The Sub-Fund may invest in equities and/or bonds of companies whether rated or unrated. The Sub-Fund will not be biased towards bonds of any particular duration.

When investing in units in collective investment schemes, the Sub-Fund may only invest in eligible UCITS and/or other non UCITS collective investment schemes that invest predominantly in transferable securities and/or other eligible assets such as money market instruments, deposits and financial derivatives instruments. As a result of exposure to collective investment schemes, investors may be subject to the risk of duplication of fees and commissions. The maximum management fees of eligible UCITS and/or other non UCITS collective investment schemes in which the Sub-Fund may invest shall not exceed 3% per annum of the target fund's assets. The Sub-Fund is not expected to invest in collective investment schemes which are managed by the Investment Manager.

The Sub-Fund may also invest in exchange traded and over the counter derivatives including but not limited to currency forwards, CFDs and swaps. The underlying of the said derivative instruments may be all types of eligible underlying in terms of the UCITS Directive, including but not limited to currencies, financial indices and interest rates. The Sub-Fund shall enter into OTC derivatives with Approved Counterparties. The Sub-Fund will bear the associated costs and fees in connection with the use of such instruments. These fees will generally be payable to counterparties in OTC FDIs. Such counterparties are not expected to be related to the Company and/ or the Investment Manager. The counterparties will not have any discretion in relation to the composition or management of the Sub-Fund's investment portfolio or over the underlying of the financial counterparty in relation to any investment portfolio transaction.

Exchange traded derivative exposures may include but shall not be limited to futures, put and call options on equity securities, on equity indices, on currencies, on credit indices and on interest rates. Indices shall satisfy the criteria of 'Financial Indices' as per the MFSA Rules. The Investment Manager shall aim to manage the portfolio's credit risk and shall aim to minimise volatility through credit analysis and diversification over a broad base of issuers, industries and geographies.

For investment, temporary or defensive purposes, the Sub-Fund may invest in short-term fixed income instruments, money market instruments, money market funds and cash and cash equivalents. The Sub-Fund may also at any time hold such securities for cash management purposes, pending investment in accordance with its Investment Policy and to meet operating expenses and redemption requests. Upon the discretion of the Investment Manager, and depending on market cycles and investment opportunities, the Sub-Fund may be fully invested in corporate and/or government bonds.

Further information about the Sub-Fund can be obtained from the Prospectus and related offering supplement as well as the latest annual and half-yearly financial reports available free of charge in English as well as in other languages of countries where the Sub-Fund is registered.

The NAV per Share will be published on the website and/or platform of the most recognised data providers. The NAV per Share will also be available at the offices of the Administrator and the Investment Manager.

No Insurance Products are offered through this product.

AQA Capital Limited may not terminate the fund under any circumstances.

If the Net Asset Value (NAV) of any class of Investor Shares falls below 3 million euros (EUR 3,000,000) for 12 consecutive weeks, the company may, after giving at least three months' prior notice, repurchase all Investor Shares in that class. The repurchase will be subject to payment terms outlined in the Prospectus.

What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early or you may have to pay significant extra costs to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

There is no minimum guaranteed return. You could lose some or all of your investment. (see the section 'what happens if we are unable to pay you')

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Duplication of Fees – Given that the Sub-Fund may invest in other collective investment schemes, there may be a risk of duplication of fees and commissions charged against the capital of the Sub-Fund.

Credit Risk – Bonds or other debt securities held for the Sub-Fund involve credit risk represented by the possibility of default by the issuer.

Exchange Rate Risk – the Sub-Fund may invest in assets denominated in currencies other than Euro, thereby exposing the Sub-Fund to fluctuations in exchange rates.

Charges and Expenses - Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

The Sub-Fund may also be exposed to additional risks, including those captured in the list of risks provided, which are not reflected in the risk indicator and may lead to further potential losses. This Risk section is not a guarantee that it will remain unchanged. More information regarding risks may be found in the "Risk Factors" section in the Company's Prospectus.

Performance Scenarios

The table below shows the money you could get back over the next 5 years, under different scenarios, assuming an investment of EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation which may also affect how much you get back.

Recommended Holding Period 5 years		Investment EUR 10,000		
Scenarios		1 year	3 years	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress Scenario	What you might get back after costs	8,807.49	9,304.53	9,463.62
	Average return each year	-11.93%	-2.37%	-1.10%
Unfavourable Scenario	What you might get back after costs	9,446.37	9,321.69	9,285.82
	Average return each year	-5.54%	-2.31%	-1.47%
Moderate Scenario	What you might get back after costs	9,957.26	10,311.41	10,446.90
	Average return each year	-0.43%	1.03%	0.88%
Favourable Scenario	What you might get back after costs	10,452.60	11,386.32	11,736.41
	Average return each year	4.53%	4.42%	3.25%

What happens if AQA Capital Limited is unable to pay out?

The Sub-Fund is a segregated portfolio whose assets and liabilities are to be treated as a patrimony separate from the assets and liabilities of each other sub-fund and of the Company. The Classes of the Sub-Fund do not constitute segregated portfolios. Please refer to the Prospectus for further details.

There are no Investor Compensation or Guarantee Schemes applicable to the Sub-Fund pertaining to financial losses. Further detail can be found within the Prospectus which can be made available to the investor upon request.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

The costs are based on the following assumptions:

- In the first year you would get back the amount that you invested (0% Annual Return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment amount of EUR 10,000.

Investment EUR 10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs in EUR	691.01	1503.51	2315.18
Annual Cost Impact per annum	6.91%	4.91%	4.51%

This illustrates how costs reduce your return each year over the holding period.

Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period. It also shows the meaning of the different categories.

This table shows the impact on return per year			
One-off costs	Entry costs	3.00%	The % of the amount you pay when entering this investment.
	Exit costs	0.00%	The % of your investment before it is paid out to you.
Ongoing costs	Management fees and other Administrative and Operating costs	3.89%	The % of the value of your investment per year. This is an estimate based on actual costs over the last year.
	Transaction costs	0.02%	The % value of your investment per year. This is an estimate of the cost incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell
Incidental costs	Performance fees & Carried Interest	0.00%	The impact of the performance fee, which is 20% of the Net Return of the Sub Fund on the appreciation in the Net Asset Value of the Sub-Fund over the previous High Watermark ("HWM").

How long should I hold it and can I take money out early?

[Recommended Holding Period \(RHP\): 5 years](#)

The recommended holding period is based on our assessment of the risk and reward and time frame in which it is expected to achieve the investment objective of the Sub-Fund. Your specific risk appetite needs to be considered for any investments made. You may receive less than expected if you cash in earlier than the RHP. There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.

How can I complain?

If you are not entirely satisfied and wish to make a complaint about this product or the conduct of the PRIIP manufacturer or the person advising on or selling the product, please visit <https://www.aqa-capital.com/complaints-handling-policy/>. Alternatively, write to AQA Capital Limited at their registered office: 171 Old Bakery Street, Valletta, VLT 1455.

Other relevant information

This Key Investor Information document is specific to the Class EUR A Retail Shares in the Sub-Fund. However, the Prospectus, annual and half-yearly financial reports are prepared for the entire Company. The Sub-Fund's assets and liabilities as well as its legal liability are segregated from other Sub-Funds of the Company.

The Sub-Fund is subject to Maltese tax laws. Depending on your country of residence, this might have an impact on how you are taxed on your investment. For further details, speak to an adviser. AQA Capital Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus or Sub-Funds Offering Supplement. Investors may switch investment to any other sub-fund of the Company or to other classes of the Sub-Fund (if others are in issue). Details on how to switch are provided in the Prospectus. Copies of the Prospectus, Audited Annual Financial Statements and half-yearly reports and past performance are available from AQA Capital Limited registered office 171, Old Bakery Street, Valletta, VLT 1455 or by visiting www.aqa-capital.com. NAV pricing can be collected from the administrator and Investment Manager office. The remuneration policy is available free-of-charge on request and may be collected from our registered office 171, Old Bakery Street, Valletta, VLT 1455 or by visiting www.aqa-capital.com.
