AQA Colombo Extra Return Fund, a sub-fund of AQA UCITS Funds SICAV p.l.c.

This Sub-Fund is managed by AQA Capital Limited, part of the AQA group of companies

Objectives and Investment Policy

Investment Objective: The AQA Colombo Extra Return Fund (the “Sub-Fund”) aims to generate absolute return by emphasising on the preservation of capital in the medium term.

Investment Policy: The Investment Manager (“We”) are expected to invest in a combination of traditional listed equities and options following “carry” strategies with the aim of obtaining returns comparable to those in the stock market with lower volatility exposure. To achieve this and with the aim of exploiting market trends, financial derivatives linked to equities, currencies and indices may be extensively used. These may also be utilised to hedge out undesired exposures. Whilst preference will be given to the use of options, the Fund may also invest in futures and CFDs.

Though asset allocation may vary depending on market expectations and available opportunities, the Sub-Fund will invest at minimum 10% of its net assets in equities, equity-related securities (such as convertible bonds, equity linked notes, financial derivative instruments with underlying equities and warrants on equities) and a maximum of 90% of its net assets in any kind of bonds, money market instruments, cash and cash equivalents. The Sub-Fund may also invest to a maximum of 10% of its assets in units or shares of other UCITS or CISs including Exchange Traded Funds. The proportion of the Sub-Fund which will not be invested in equities or financial derivatives may be invested in low risk bonds having an average duration of 3 years and having a credit rating above “B” by S&P/Fitch or “B2” by Moody’s.

The Sub-Fund will have a global exposure with no industry, geographic, market capitalization or market sector bias. However, it shall focus particularly on developed markets as defined by MSCI.

For cash management purposes, to meet operating expenses or redemption requests we may hold cash and cash equivalents on an ancillary basis pending investment in accordance with its Investment Policy.

The Sub-Fund is also expected to invest in FDIs, including currency forwards, and ETFs for hedging and risk management purposes.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Income: This Class is distributor class so and therefore the Directors shall distribute dividends in accordance with the Company’s Dividend Policy.

Buying and Selling Shares: You may buy and sell Class C Retail EUR Distributor Shares (this “Class”) on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency: The Class in the Sub-Fund is denominated in Euro.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw money within less than 5 years.

Risk and Reward Profile

The above risk and reward indicator rates this Sub-Fund as category 5 meaning that the Sub-Fund offers a medium to high risk of making a loss but also a medium to high chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free. The rating shown is not guaranteed and may change over time.

The Sub-Fund’s rating reflects the nature of its investments and the corresponding risks to which the Fund is exposed. These risk factors, which include the risks listed below, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses:

Duplication of Fees – Given that the Sub-Fund may invest in other collective investment schemes, there may be a risk of duplication of fees and commissions charged against the capital of the Sub-Fund.

Exchange Rate Risk – The Sub-Fund may invest in assets denominated in currencies other than Euro, thereby exposing the Sub-Fund to fluctuations in exchange rates.

Charges and Expenses - Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

More information regarding risks may be found in the “Risk Factors” section in the Company’s Prospectus. The “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.
