AQA Credit Strategies Fund, a sub-fund of AQA UCITS Funds SICAV p.l.c.

This Sub-Fund is managed by AQA Capital Limited, part of the AQA group of companies

Objectives and Investment Policy

Investment Objective: The investment objective of the Sub-Fund is to achieve stable capital growth and generate an attractive total return consisting of current income and capital appreciation, with low levels of volatility typical in traditional bond asset classes.

Investment Policy: The strategy of the Sub-Fund will be to capitalise on market uncertainty with both traditional long-only and alternative UCITS-compliant investment strategies. The Investment Manager shall allocate investments across different levels of asset classes and capital structure. The Sub-Fund shall invest primarily in a diversified portfolio of corporate and government fixed and/or floating bonds and other types of financial credit instruments. The Investment Manager may take positions in non-traditional and alternative UCITS-compliant fixed-income strategies to achieve potentially exceptional risk-adjusted income and return. It may also hold cash or cash equivalents, short term fixed income instruments and money market funds. It may also take synthetic short positions on fixed income equity through exchange traded derivative instruments. The Sub-Fund may invest in FDIs, including currency forwards, and ETFs for hedging purposes and the reduction of risk.

The Investment Manager may take positions in Convertibles, Event-Driven, Special Situations, Catastrophe (CAT), and Market Price Inefficiencies strategies, through both single securities and other collective investment schemes.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Income: This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares.

Buying and Selling Shares: You may buy and sell Class B EUR Institutional Shares (this “Class”) on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency: The Class in the Sub-Fund is denominated in Euro.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw money within 2 years

The Sub-Fund’s rating reflects the nature of its investments and the corresponding risks to which the Fund is exposed. These risk factors, which include the risks listed below, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses:

Duplication of Fees – Given that the Sub-Fund may invest in other collective investment schemes, there may be a risk of duplication of fees and commissions charged against the capital of the Sub-Fund.

Charges and Expenses – Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

Credit Risk – Bonds or other debt securities held for the Sub-Fund involve credit risk represented by the possibility of default by the issuer.
