This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you to understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Class III Shares – ISIN Number MT7000024220

Castlestone Low Volatility Income UCITS Fund, a sub-fund of AQA UCITS Funds SICAV p.l.c.

This Sub-Fund is managed by AQA Capital Limited, part of the AQA group of companies.

Objectives and Investment Policy

Investment Objective: The Castlestone Low Volatility Income UCITS Fund (the “Sub-Fund”) aims at generating capital growth from the equity market whilst also maintaining in aggregate lower volatility relative to the broader US equity market.

Investment Policy: The Investment Manager (“We”) are expected to invest mainly in listed equities, derivatives such as covered call options, deposits in different currencies and eligible ETFs (the underlying of which will be exchange traded equities). Exposure to these asset classes may be achieved both directly or indirectly through eligible UCITS funds having similar investment policies and objectives as those of the Sub-Fund. In aggregate, no more than 10% of the Sub-Fund’s assets will be invested in units or shares of UCITS, including those which are established as exchange traded funds.

The Sub-Fund is expected to invest mainly in the US equity market with focus on equities listed by issuers domiciled or with country of risk being the United States of America. In aggregate, the fund will seek for these investments to have lower volatility characteristics relative to the broader U.S. equity market. Up to 100% of the assets of the Sub-Fund may be invested in equities. The Sub-Fund is however not expected to have any specific industry, market capitalisation or market sector bias.

The Sub-Fund may hold cash and cash equivalent for cash management purposes pending investment in accordance with its investment policy and to meet operating expenses and redemption requests.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Income: This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares. The Directors reserve the right to pay Dividends at any time if they consider that a payment of a Dividend is appropriate.

Buying and Selling Shares: You may buy and sell Class III Shares (this “Class”) on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency: The Class in the Sub-Fund is denominated in GBP.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw money within less than 6 years.

Risk and Reward Profile

The above risk and reward indicator rates this Sub-Fund as category 4 meaning that the Sub-Fund offers a medium risk of making a loss but also a medium chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free. The rating shown is not guaranteed and may change over time.

The Sub-Fund’s rating reflects the nature of its investments and the corresponding risks to which the Fund is exposed. These risk factors, which include the risks listed below, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses.

Duplication of Fees – Given that the Sub-Fund may invest in other collective investment schemes, there may be a risk of duplication of fees and commissions charged against the capital of the Sub-Fund.

Exchange Rate Risk – The Sub-Fund may invest in assets denominated in currencies other than USD, thereby exposing the Sub-Fund to fluctuations in exchange rates.

Charges and Expenses - Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

Operational Risk – If a custodian appointed by or on behalf of the Sub-Fund were to become insolvent or act negligently or fraudulently, this could lead to the substantial loss of securities held in custody for the Sub-Fund.

More information regarding risks may be found in the “Risk Factors” section in the Company’s Prospectus. The “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.
